## PRODUCT CATALOG

PREMIUM METAL SHADE STRUCTURES

We are thrilled that you are interested in our well-designed and built products! We want you to know that we have created this catalog very carefully, to include all the information you may need to decide on the shade structure that best suits your needs. We also want you to know that if you can't find a design that inspires you in our catalog, our engineers will be more than happy to work with you to come up with a design that fits your style!

We developed this catalog with a list of products and constructions that we have relentlessly worked on perfecting over the past 4 years. So that you can rest assured that our customers will not be the ones testing our products. Everything listed here has been carefully designed, tested, and previously installed. So that you, as our most valuable asset, will receive the best product you could ever find in Egypt.

Thank you for your interest in our company's products, and we can't wait to show you how we can transform your outdoor living space.

Cairo Shade's Team  
January, 2023

# EXCELLENCE

When we first thought about starting our company, we were not looking for any project or a business idea. We were looking for a way to introduce a World-Class quality Shade Structures and service level to the Egyptian market. In late 2016, the founder of the company relocated back to Egypt from overseas, with one objective in mind: "Provide those who are seeking shades structures with world-class quality and service level, with the best buying experience they could ever find in Egypt". And from there, Cairo Shades started. We were asked multiple times, why "Cairo"? Why not choose a foreign name that may give the customer a perception of an imported or a foreign product. Our answer was simple; our product will speak for itself, and one day, customers will look for Cairo Shades' product and prefer it over any other product- local or imported.

From the time you enquire about one of our products, to the time you use and enjoy it as your own, our objective is to make sure that you absolutely enjoy every aspect of the process.

## PREMIUM QUALITY

Only the best designs, materials and finishes. We understand that the key to your satisfaction is best quality and on-time delivery and installation

## ENGINEERED FOR YOU

Your product is designed for your home or business, to meet your style and needs. That's why we carefully engineer each product for each customer.

## SATISFACTION GUARANTEE

We guarantee your satisfaction! If for any reason, you are not fully satisfied with your product, we will do everything possible to meet correct it to your expectations.

## THE CAIRO SHADES DIFFERENCE

When you choose Cairo Shades to design and build your shade structure, you enjoy the difference that stems from our eagerness to satisfy our customers and treat each project as an unique piece of art. Here are some of the advantages of working with Cairo Shades:

### 1- See your project in Photo-Realistic 3D model before you commit

Once you choose a design similar to what you are looking for, and discuss a budget with us, we work on a 3D Model of your outdoor space and your structure. This way, you can rest assured that we fully understand what you want, and that your final product will look exactly as you want it!

### 2-Unlimited revisions

We will make any number of changes to the 3D Model until you are 100% ready to approve it.

### 3- See samples of your paint colors before you approve the design

Computer screens don't always show the true color you choose. This is why, we make sure that you see, touch and feel samples of the paint you choose for your structure.

### 4- Commitment to quality and delivery

The first step in ensuring your satisfaction, is to share all the details of your project with you, and make sure that we are going to produce and install exactly what you have in mind. We are committed to your satisfaction from the first step, all the way through delivering your project on-time!

### 5- High-end materials and paints

We only use premium materials, fully treated to withstand the all weather and environmental conditions.

### 6- Super high quality finish

No gaps, no shaking material, no paint drops, no stripped hardware... Just perfect finish, every time.

### 7- Anti-corrosive Stainless Steel and High-Density Polymer Hardware

100% stainless steel hardware, fully insulated steel, full Aluminum to Steel insulation... These are just some of the steps we take to ensure that our products provide the maximum corrosion resistance available in the market.

### 8- No limits to creativity!

From multi-color and wood-effect paint, to power outlets, USB charging ports, and Infrared Heating Elements, your shade structure can be anything you can imagine, and more!

# THE ORDERING EXPERIENCE

We want the ordering process to be as simple and enjoyable as possible. So, here is what to expect when ordering a shade structure or wind-breaking system from Cairo Shades.

## SHARE YOUR NEEDS WITH US

View our gallery and pick a design or two that are closest to what you have in mind. Let us know the dimensions and location of installation.

## WE MAY ASK A FEW QUESTIONS

One of our experts will reach out to you with a few questions to ensure that we understand your needs so that we can best assess the best solution for you.

## PRELIMINARY DESIGN AND COST ESTIMATE

We will provide with a rough-cut estimate of the cost of your selected design. Normally, this would be about 80% accurate pending a site survey.

# THE ORDERING EXPERIENCE

## SITE SURVEY

If the rough-cut estimate is within your budget, and you would like to proceed, we schedule a site survey, to measure the installation dimension and evaluate the installation site.

## 3D MODEL

If your selected design requires modifications, we create a 3D model with the suggested modifications and send it to you for your review and feedback. We incorporate your feedback for a final model.

## FINAL CUSTOMER APPROVAL

We continue to make modifications to the model until you like it and agree to proceed to the final quote.

## FINAL QUOTE AND APPROVAL

As soon as your design and finalized, we create a final quote for your review and approval. Once accepted, we start fabricating your Pergola, keeping you informed all the way through completion.

## DELIVER YOUR DREAM PERGOLA

On the date agreed for delivery and installation, our technicians will arrive to the site and install the pergola. Once completed, we walk you through all the details to ensure your acceptance and satisfaction.

## AVAILABLE COLORS

### ELECTROSTATIC RAL AND WOOD COLORS

Available for both Steel and Aluminum. We use factory painted colors using electrostatic technology, exclusively provided by El Dawlia 21. Visit [<http://www.dawlia-eg.com/categories/colors>] for more information.

**BASIC RAL COLORS**

**ANTIQUE RAL**

**WOOD COLORS**

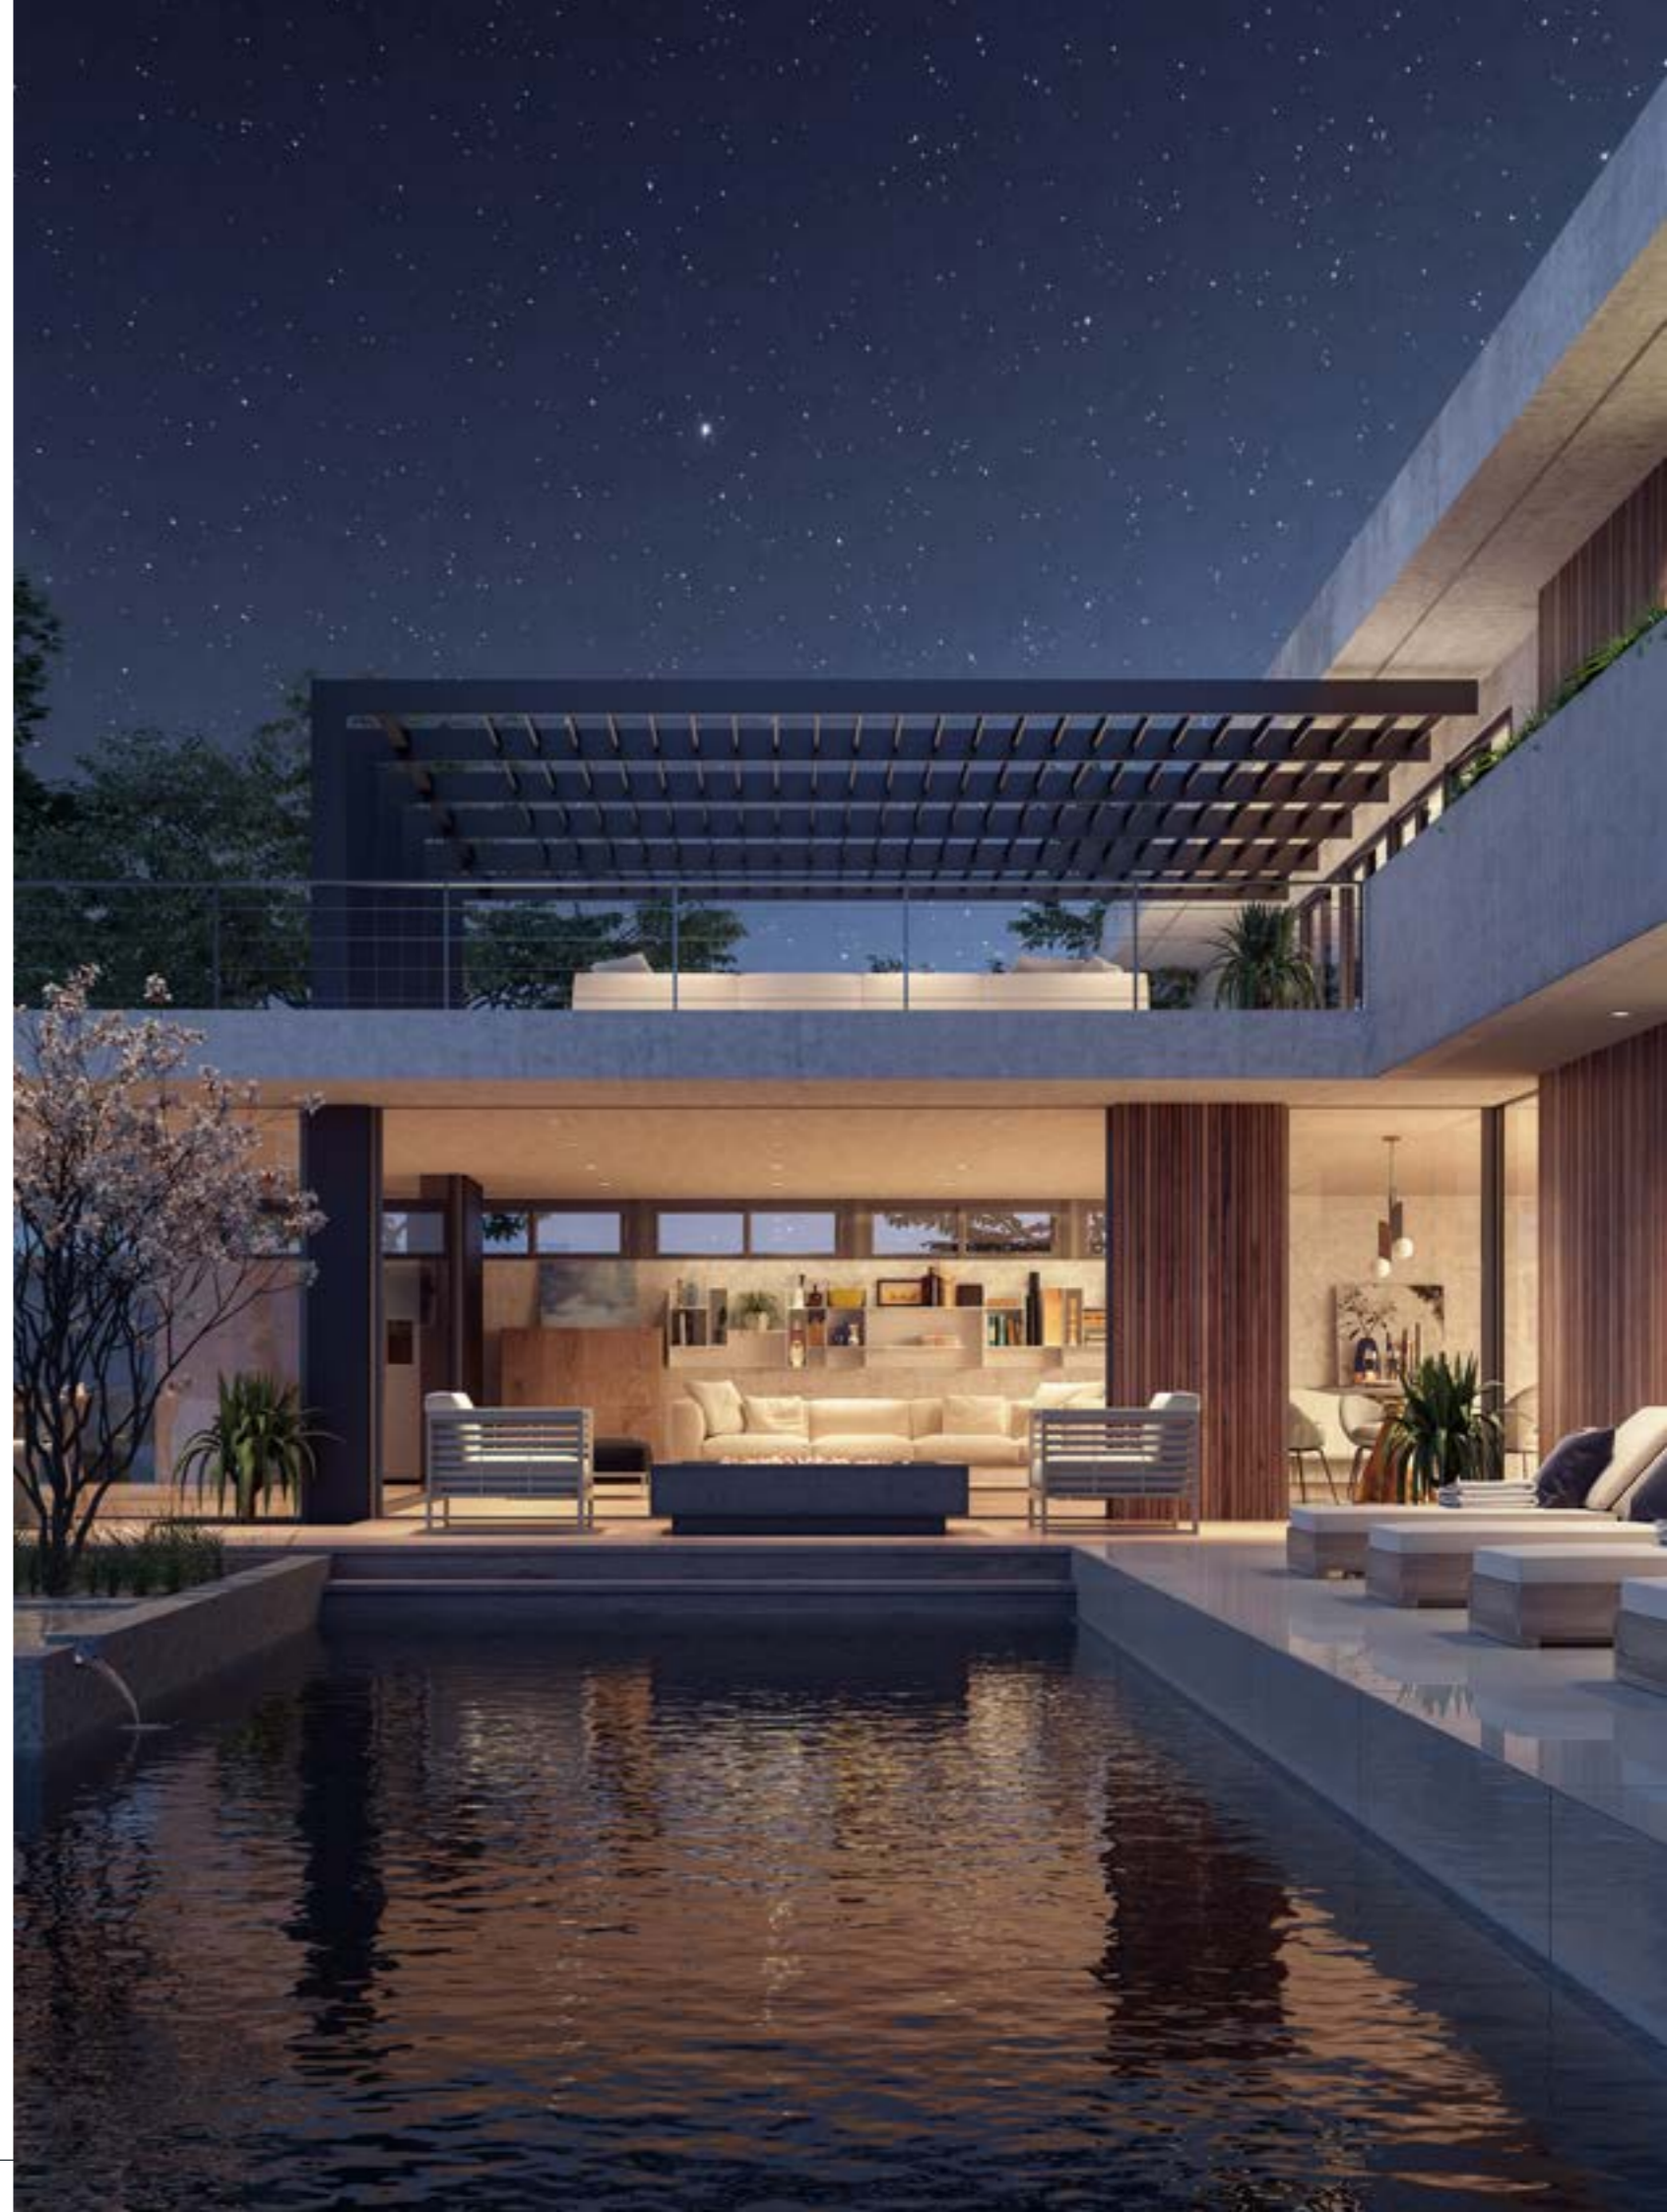

**3D WOOD COLORS**

### EPOXY AND POLYURETHANE ANTICORROSIVE PAINT

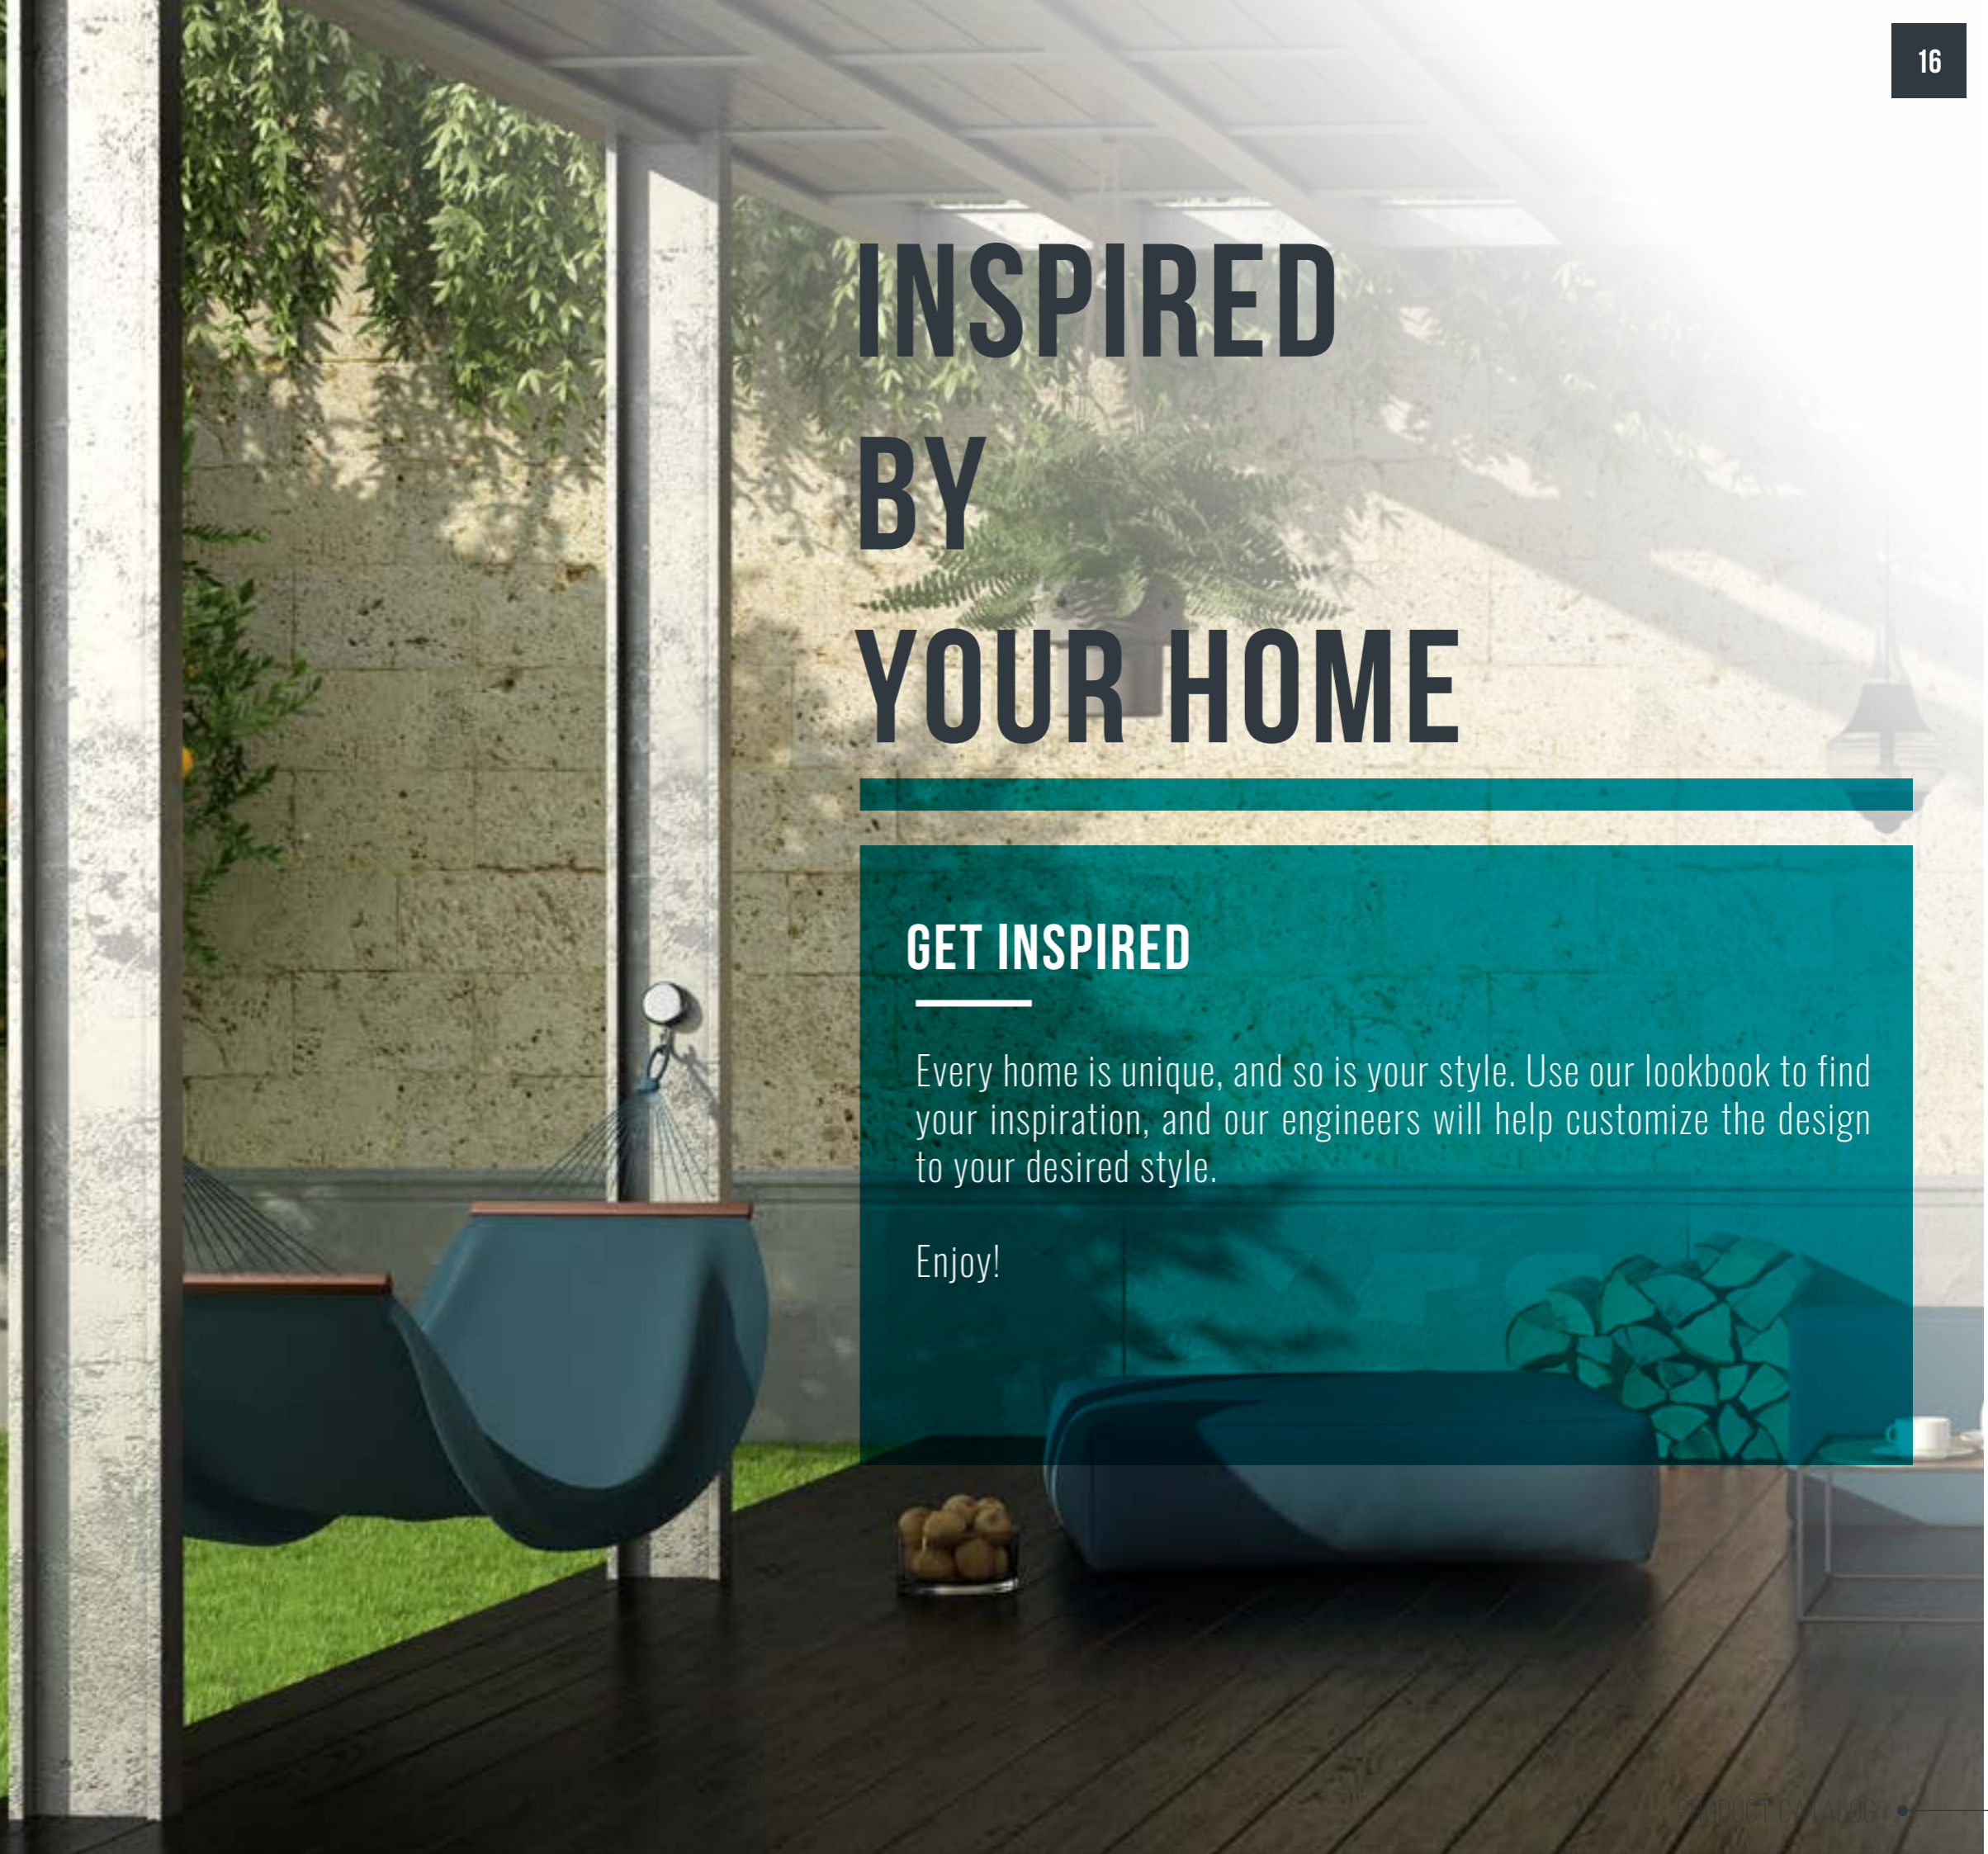

Using one of the best anti-corrosive paints in the world, manufactured by Akzonobel. Available in a wide range of colors that meet all needs.

For steel paint, all materials go through a thorough cleaning process, sand blasting to clean bare metal, then receive a coat of epoxy primer, followed by a carefully and professionally sprayed epoxy paint.
